

**Apollo - fact or fiction**  
*by*  
***Paul Hall***

**Lindop Building**  
**College Lane Campus, Hatfield**  
**Wednesday 24 April 2019 at 7.00pm**

It is now almost 50 years since man made his first steps on another world, and over 45 years since the last man left the moon. In the meantime, an industry has grown up around showing that Apollo was a hoax, and that no one has been to the moon. In this talk, the author will examine evidence for and against the Apollo landings.

**Paul Hall** is a former maths and science teacher with a strong interest in the Apollo landings.
